

R (<https://cran.r-project.org>)

R Studio (<https://www.rstudio.com>)

ToPan (<https://zenodo.org/record/1149062#.WmCaCyOZNBw>)

Metallo (<https://zenodo.org/record/1149078#.WmCaMCOZNBw>)

Once R has been downloaded, use the `install.packages` command to install necessary packages:

```
install.packages("shiny")
install.packages("LDAvis")
install.packages("XML")
install.packages("xml2")
install.packages("RCurl")
install.packages("httr")
install.packages("lda")
install.packages("servr")
install.packages("markdown")
install.packages("data.table")
install.packages("stringr")
install.packages("plyr")
install.packages("ggplot2")
install.packages("jsonlite")
```
